**BITT-G/NOTICE/2019-20/**

**Dated: 02/01/2020**

## NOTICE

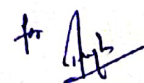

Dear Student, In the journey of Digital BITT, the management has decided to upgrade its internet bandwidth and distribution. The Management is committed to ensure an open culture to connect with the world where students could get connected easily. Connecting with the world's leading library, online tutorials, edx, tedex, startup world etc. will be core focus area of this year 2020. BITT ensures holistic development of every student. You can request using ERP for free WiFi access inside campus. It's 100 MBPS of bandwidth this time. Let's build a more vibrant and digital campus together. Wishing you all a prosperous year ahead 2020.

This is the 21st century era and it truly belongs to the Web Information. Internet in this century forms the backbone for everyone in different aspects of life. Acknowledging this need as well as its significance in today's world particularly in education domain, BITT POLYTECHNIC is looking forward to become well supported by around the clock Wi-Fi Facility. Taking full advantage of this digital revolution that is happening now. Our swift speed internet facility throughout the campus helps the students of BITT surf the web from their classrooms, canteen or anywhere in campus and take help from sources in research available. Through this they have more opportunities to gain knowledge and extract unlimited information.

Ensuring complete accessibility the students can access the internet through their laptops, I-pad or any other hand held devices. Our spacious classrooms and computer labs with impeccable ambience are equipped with latest computer hardware and software. The students can make sure of this facility which is offered 24\*7 and gather information which adds to their knowledge bank. Through internet they can research infinite content for their assignments, make presentations of professional caliber, look out for different job opportunities when they are near to their completion of studies, gather information of corporate world, attain notes online and finally make such a flourishing career that it sets them apart from most of the other college going students.

Digital Transformation is imperative for our institute as we believe in equipping candidates with skills for employment and shaping a wisdom landscape where more than bookish and greater entrepreneurial skill is focused boosting their capabilities exponentially and as we see our government aim is of complete digital India enabling pace of innovation as well as tackling many of challenges we face today.

BITT is looking to take full leverage of intelligent tutoring system with massive data analytics which caters to adaptive and logical based system of learning at the same time ensuring efficiency in administration. Enterprise Resource Planning (ERP) framework being deployed in our institution will eliminate each and lagging factor and building up a holistic student-centered approach with unlimited benefits like a paperless system getting rid of long documentation process

also accelerating the pace of research and development with all embracing internet facility with 100Mbps speed.

**Note:** A dashboard is provided to students (ERP) from which students will get wi-fi password, tentatively from 15/01/2020.
