DEPARTMENT OF TRAINING, PLACEMENT, CONSULTING,
INNOVATION & RESEARCH (DTPCIR)

NOTICE

All the students of 6th semester diploma on EE, ECE & ME of sessions: 2019-22, 2018-21, 2017-20, 2016-19, 2015-18, 2014-17, 2013-16 are hereby informed that “**HITACHI ASTEMO, LTD.**” is shortly going to do online/offline /recruitment/ Apprenticeship/ placement program

HITACHI Astemo

HITACHI ASTEMO, LTD.

Hitachi Automotive Systems, Keihin, Showa, and Nissin Kogyo completed a business merger and began their journey as the global mega-supplier “Hitachi Astemo”. Since it first started producing automotive electric parts in 1930, Hitachi has continued to build on its successes to expand its product portfolio and help accelerate the automotive evolution in Japan. Hitachi Astemo’s wide range of automotive and motorcycle products strive to make significant contributions to safety, comfort, and sustainable technologies for mobility. Regional headquarters: Tokyo

Hitachi Astemo will provide advanced mobility solutions in the areas of electric powertrains for automobiles, advanced chassis, autonomous driving/advanced driver assistance systems, and systems for motorcycles. In addition to reducing traffic accidents and traffic congestion, we aim to reduce the burden on the environment by cleaning exhaust gas and improving fuel efficiency to contribute to the realization of a society that is both people- and eco-friendly.

Hitachi Astemo, Ltd. manufactures and distributes automotive components. The Company produces cylinder injection engine systems, variable valve systems, exhaust compatible multipoint injection systems, and other products. Hitachi Astemo also produces transportation related components, industrial machines, and other products.

The Company is engaged in various business segments such as control systems for electric vehicles, engine management systems for gasoline-powered vehicles, products for fuel-cell vehicles, engine-management systems for natural-gas vehicles, and air-conditioning systems. Although a part of the Honda Group, the Company won an order for gasoline-engine parts from Toyota in Thailand in June 2019. This product-order from Toyota, i.e., a non-Honda order, was one of the major targets outlined in its 13th mid-term management plan covering three years.

In October 2019, Hitachi Limited and Honda Motor announced that four of their parts-supplier subsidiaries

will be merged into one company, which will be Hitachi Automotive Systems. The three Honda subsidiaries (Keihin, Showa, and Nissin Kogyo) will cease to be individual corporate entities. Hitachi Automotive Systems, the surviving company, will consist of Keihin's powertrain business, Showa's suspension and steering businesses, Nissin Kogyo's brake systems business, and its own powertrain-system, chassis-system, and safety-system businesses. The company will take advantage of the synergy effects with Hitachi Limited's Lumada solution that makes use of digital technology, in order to improve the connected field in terms of safety and mobility services.
